SUGAR

WILLIAMS, DIMOND & CO'S ADVICES.

Under date of December 19th, Williams Dimond & Co., of San Francisco, write to their correspondents here as follows:

We last had this pleasure the 14th instant, per Alameda.

Sugar—No changes have since occurred in the local market or for export to Honolulu, prices established 2d instant still being in force.

Basin—No sales since last advice, consequently basis for 96-degree centrifugals in New York, established by transaction recorded 6th instant, still remains at 3.75c; San Francisco, 3.375c.

New York Refined—Telegraphic reports dated 17th instant show a reduction of ten points by the Howell refinery and Messrs. Arbuckle Brothers over previous quotation of 4.75c, equivalent to 4.65c net cash, still maintained by the American Sugar Refining Company. The Howell refinery and Messrs. Arbuckle Bros. present price is 4.65c, equivalent to 4.55c net cash.

London Beets—Dec. 16, 7s; Dec. 17, 7s 3/4; Dec. 18, 7s.

London Cable December 18th quotes Java No. 15 D. S. 8s 10 1/2d; fair refining, 7s 10 1/2d; same date last year, 12s 3d, and 11s 3d, respectively. December beets, 7s 1 1/2d, against 3s 4 1/2d corresponding period last year. January beets, 7s 2 1/2d, against 3s 5 1/2d same date last year.

Eastern and Foreign Markets—Sales aggregating 25,000 tons of European beets have lately been made for American account, and the market abroad for a time was favorably influenced in consequence. The advance proved to be of short duration, however, American refiners having since withdrawn from the market, and an easier tone now prevails. The chances of any pronounced improvement in prices in this country are necessarily diminished by the transactions above outlined, since it is apparent that refiners can freely enter the European market when desirous of so doing, and replenish stocks at will. On the other hand, the prospects of legislation to admit Cuban sugars at a lower rate of duty, while not likely to pass before the end of January, or some time in February, according to present indications, are nevertheless so favorable as to give producers there a strong inducement to dump their sugars until a preferential duty becomes law. The limited offering resulting therefrom tends to keep prices steady, and the market for raws, according to latest mail advices from New York, is quiet and strong at current quotations. Refined is in moderate demand, buyers showing no inclination to make purchases in advance of current requirements.

Duty on Philippine Sugar—The tariff bill presented by the ways and means committee of the House of Representatives, covering trade between the Philippine Islands and the United States, having been passed in accordance with the desires of the administration, passed the house the 18th instant by a vote of 163 to 128. By the provisions of this bill the Dingley rates on goods entering the United States from the Philippines are imposed, as well as the rates established by the Philippine commission on goods entering the Philippines from the United States. It also provides for collection of tonnage taxes on vessels lying between the United States and the Philippines, and that foreign vessels may ply between these ports until January 1, 1905. The duties and taxes collected under the provisions of the bill shall go into the Philippine treasury to be expended for the use and benefit of the Islands.

Latest Statistical Position—Willet & Gray report December 12th, United States four ports, in all hands, estimated December 12th, 127,550 tons, against 59,596 tons same date last year. Six principal ports of Cuba, estimated December 12th, 28,000 tons, against 989 tons corresponding period last year. Total stock in all principal countries, by cable December 12th, at latest uneven dates, 1,367,550 tons, against 1,506,041 tons; increase over last year, 437,509 tons.

THE BOARD WANTS PAY

(Continued from Page 9.)

would be extended as far as Metcalf street. Mr. Boyd also stated that he was doing everything possible to raise money for the construction of the Kewalo drain, but Treasurer Wright had reported no funds available for the purpose, and he could do nothing. President Sloggett called his attention to the great need of the improvement, which Mr. Boyd readily admitted.

"I'd like to ask," said Dr. Moore, "if there is an appropriation made for this purpose?"

"Yes," replied Mr. Boyd; "the legislature can appropriate all it wants, but as long as it fails to provide the money, what can we do? I appreciate the great need of this drainage system, and shall try to get it through. It will always be my endeavor to work in harmony with the Board of Health."

MOLOKAI MATTERS.

The committee on petitions reported unfavorably upon two requests for permission to visit the settlement.

The request of Thomas Fitch that Mrs.

Alice Metcalf be allowed to go to Molokai to confer with Mrs. Emma Metcalf regarding a lawsuit instituted recently, was granted. It was conditioned, however, on Mrs. Alice Metcalf remaining in the corral during the interview.

CONTRACTS WERE LET.

Contracts were awarded yesterday for furnishing supplies to the asylum and settlement for the next six months. The Board of Health set a good example in letting contracts when bids were nearly equal, to the firm which specified home-manufactured goods. In one case where the two lowest bidders were tied, the contract was decided by a flip of a coin. The following were the successful bidders, and the nature of the supply for which they were awarded contracts:

Allen & Robinson, lumber, t. & g., N. W. 1st doors, 2x4 by 6x6-14 inches; nails, galvanized 3d. basis, boiled oil, coal.

H. Hackfeld & Co., nails, galvanized 3d., turpentine, baking powder, condensed milk, best grade salmon, coarse salt, tomatoes.

California Feed Company, lime and ham, wheat.

W. L. Hopper, iron piping, rice.

Lewers & Cooke, lumber, N. W. rough 2x1 up and below 2x7, lumber redwood surfaced, battens 1/2x3 redwood.

Metropolitan Meat Co., corn beef, fresh meat.

Pacific Hardware Co., 8d. nails, mill brooms.
